

Podiatry Service

Why is it important to look after your feet?

Your feet are important, they are one of the key aspects of your mobility and independence. Your feet play a huge part in your life, they enable you to enjoy good health and fitness.

Diabetics in particular need to keep a regular check on their feet.

If you suffer from bunions, corns, in-growing toenails, callouses, athletes foot, claw toe, plantar fasciitis, neuromas or fungal nail infection or you just simply cannot reach your feet anymore and need your toenails clipped, come and see one of our two fully qualified Podiatrists, Jacqui or Helen. If you have difficulties getting out and about, it is possible to arrange a home visit.

£28.00 per session
